[REDACTED]

Are there people working on site and if so what are their job functions?

If you can't find the correspondence from December/January that informed us of operations ceasing, please write up a letter that states when production/discharge ceased, what the operations look like currently, and what, if anything, you know about future operations. Please send me a signed copy of the letter.

Thank you,

Katie Helton, EIT

Katie,

I will be in the plant this afternoon and look then. I know I communicated with [REDACTED] about all of this early last year as well as field ops.

[REDACTED]

Thanks for the quick reply. After digging a little, it looks like you talked to Field Ops (sampling team) about this back in June. I was not your permit manager last winter and have not been able to find any correspondence from last winter regarding operations ceasing. If you have any emails showing you informed us of stopping operations last winter, please forward them to me.

Thank you,

Katie Helton, EIT

Katie,

I thought I had told you about our situation last winter. We have stopped operations as of Dec 23, 2016. We have not created any waste water or discharged any since last year. There is nothing for me to monitor or get a sample from.

I m not sure what else I can do Please let me know

Regards,

Ross

Subject: Wastewater Permit# 433 051 - Urgent

Importance: High

[REDACTED] and [REDACTED]

Please respond quickly, as this is an urgent matter

What is the status of Solo Power and operations?

Note there are Self-Monitoring Reports due to the City on October 15, 2017

Also, zero Self-Monitoring reports have been submitted for the entire year of 2017 Please explain and send all reports from 2017 The lack of reports may result in an enforcement action or violation

Please send all documents showing when the shutdown started, ended or plans to end

Below is Solo Power s reporting requirements

Thank you,
